

Title V programs provide grants to assist HSIs with expanding educational opportunities for Hispanic students. Title V grants also enable HSIs to expand and enhance their academic offerings, program quality, and institutional stability.

To receive federal funding under the Department of Education's HSI programs, institutions must meet basic eligibility criteria and have an enrollment of undergraduate full-time equivalent (FTE) students that is at least 25 percent Hispanic at the end of the award year immediately preceding the date of application.

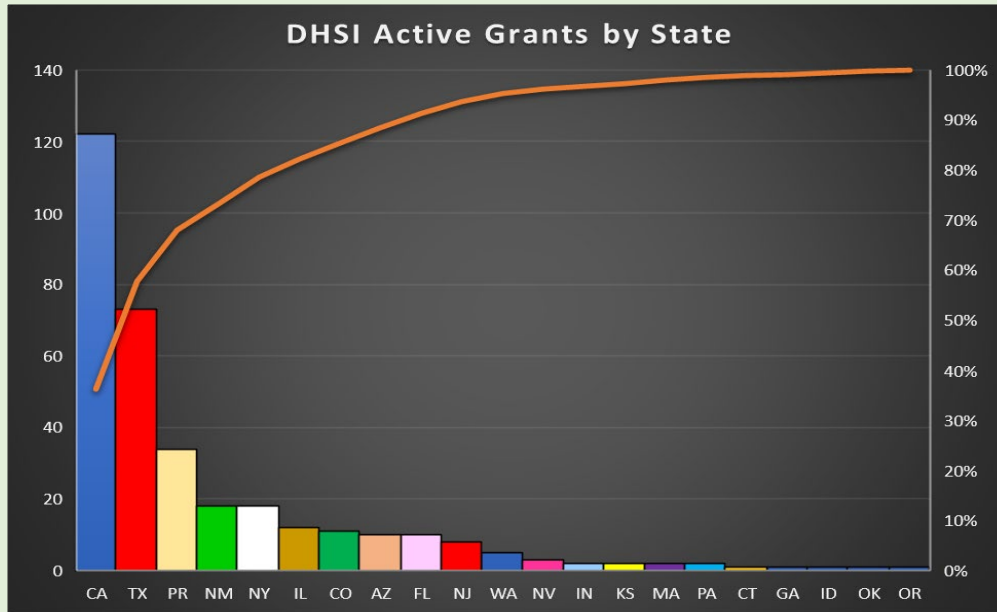

Institutions designated as eligible institutions may apply for Individual Development Grants. Grants have a 5-year duration and maximum annual award amount of \$600,000. This amount can vary depending on the annual appropriation for the year and the discretion of the program.

In 2023, the program will take a unique approach- We will "fund down" the FY 2022 slate of awards, as well as hold a new grant competition (close date: 6/13/23.) We expect to fund over 100 new grant projects. Total funding for new awards: approx. \$65 million.
